

I would like to tell you how important FM translators are in my life. The station I listen to most is K-Love (91.1). Christian rock radio is the station I choose to listen to and to support, (as I do give monthly to support this station). This is the only station of it's kind that I can receive a clear signal for, and I want to be able to continue to provide this station for my family to listen too. Please do not give LPFM the ability to over-ride our translator stations. Thank You Diana Combs
